### **MILITARY INFORMATION AND COMMUNICATIONS SYMPOSIUM TO BE HELD AT THE CSIR INTERNATIONAL CONFERENCE CENTRE: 9 TO 13 MAY 2016**

The seventh Military Information Communications Symposium of South Africa (MICSSA) will be hosted by the Command Management Information Systems Division (CMIS) on behalf of the Department of Defence (DOD) together with ARMSCOR, CSIR and SITA over the period 9 to 13 May 2016 at the CSIR International Convention Centre.

The aim of MICSSA is to continue with the tradition of building on the opportunity of promoting information and communications related developments between the local and international Defence Community, Government and Industry. MICSSA provides the platform where ideas, strategies, requirements and potential solutions can be shared and discussed.

The Theme for MICSSA 2016: "Gaining the Edge Through ICT Modernisation".

All information related to MICSSA 2016 can be obtained at the following website [www.micssa.co.za](http://www.micssa.co.za)

The symposium aims to reach experts and opinion formers in the following fields:

- Military personnel active in communication and information systems.
- Academia and Technology Developers.
- Defence Forces of Africa and other developing countries.
- National and International Defence related industries.
